

Tioronda Garden Club

Highway Marker

The Blue Star Memorial highway marker is currently in the crate at the highway department. The marker is double sided and is to be mounted four feet above ground. It is nothing short of magnificent and even better looking in person. Gary Barrack will present the history of the marker, dimensions, and some background information including the location requirements mandated by the National Garden Clubs Inc. (of which the Tioronda club is an affiliate) at the upcoming Workshop meeting on February 25, 2019.
