Re: Expansion of Wee Play Park at Memorial Park

Below is the project estimate for the new Wee Woods project at Memorial Park. Expenses for this project will be shared by the City of Beacon and the Wee Play Project. We will also be implementing a fundraiser to sponsor the planting of the trees. Any additional monies raised from the fundraiser will be set aside for future phases of this play area. This is our first phase and construction will include;

- Plant of 50 trees
- New sand play area
- Willow hedge row and walking path
- Entrance with signage and bench
- Earthen steps

Development of a new natural play area will;

- Expand the playground in a low impact natural setting
- Allow us to move sand play to a new area so we can begin rehab of the existing artificial play surface
- Create play feature more suitable for older children

Wee Play	Labor for project	\$8034.00
City of Beacon	Material for project	\$3700.00
City of Beacon	100 yards safety mulch	\$2700.00
City of Beacon	50 saplings and protection	\$3000.00
Fundraiser	Sponsor a tree	-\$5000.00

Wee Play Total	\$8034.00
City of Beacon Total	\$6400.00

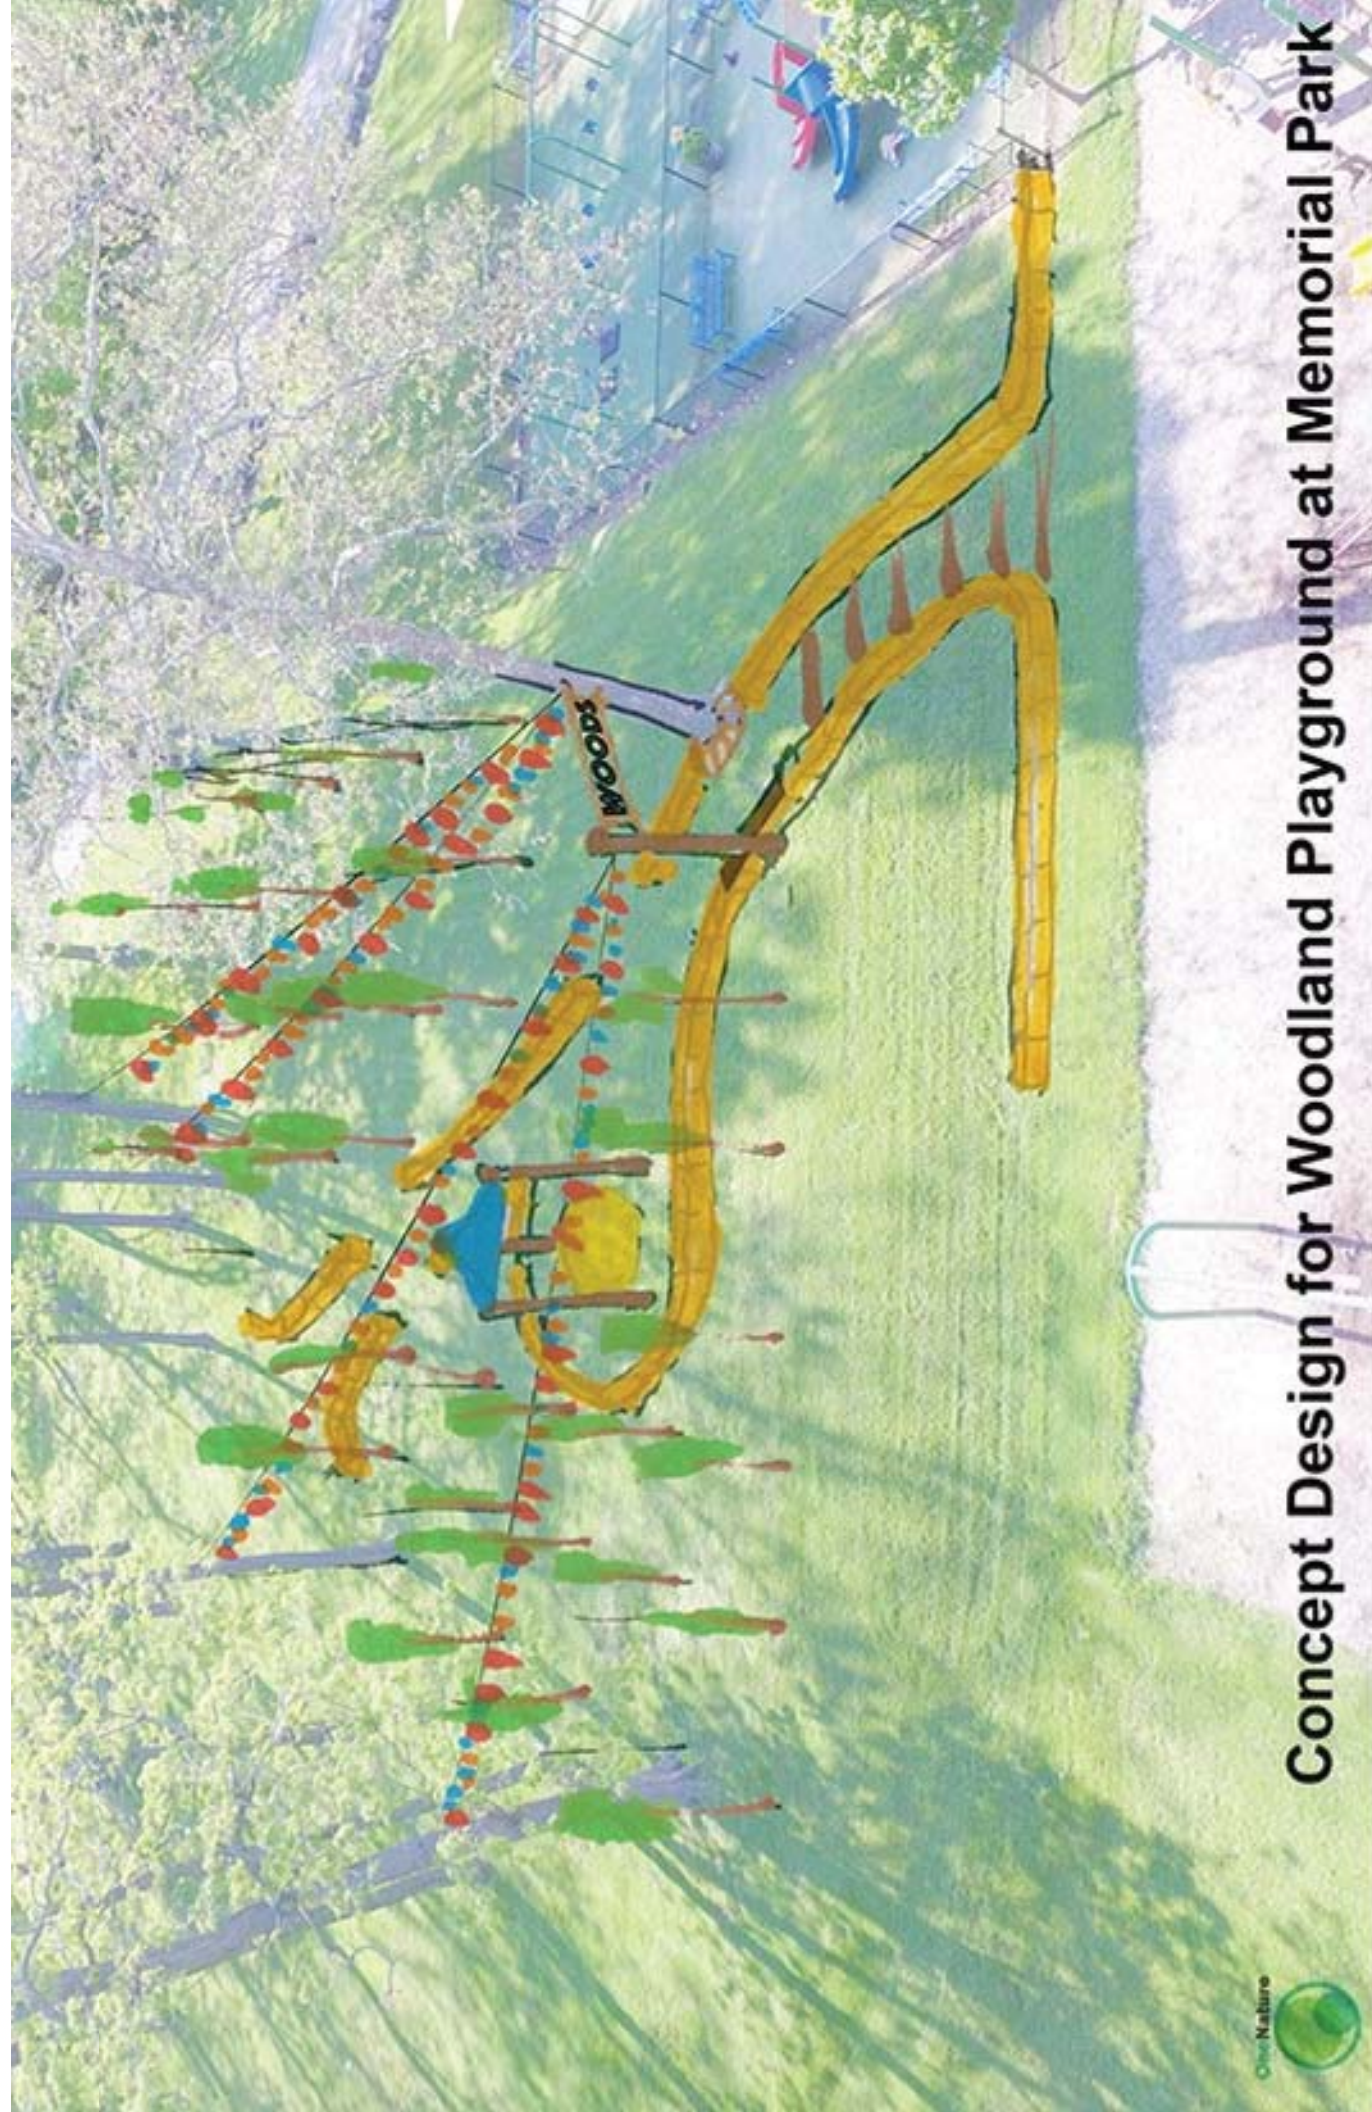

Thank You,

Mark Price
