

REDI+ROCK

The LedgeStone texture is available on any Redi-Rock® block. That means you can create a gravity or reinforced retaining wall, top it with a freestanding wall, and even accent it with columns. Beautiful!

REDI-ROCK TEXTURE:

LEDGESTONE

Strong. Rugged. Handsome. What, you don't have those thoughts about retaining walls?

Well, we do. At Redi-Rock, we like retaining walls to look great while doing the hard job of holding back the earth. We painstakingly sought out world-class stone to create molds that give these blocks their classic stone aesthetics.

Redi-Rock LedgeStone blocks give projects a random, stacked stone look. Because they're made using architectural-grade precast concrete, the level of detail in the texture is outstanding.

LedgeStone Block Specifications

- 
- Trapezoidal shape allows convex and concave radii
 - 5.5 inch (140 millimeter) deep texture
 - Colors can be formulated based upon local region
 - Ten individual face molds offer up to 115 square feet (10.5 square meters) of non-repeating patterns
 - Wet-cast concrete gives a greater level of detail and durability

Regional colors and coordinating accessories are available. Contact Katie DeMarco of Mid Hudson Concrete Products at (845) 265-3265 or visit **redi-rock.com** to learn more about Redi-Rock LedgeStone today!
