

NYC : Beacon

Current vinyl replacement proposal

Streetview

Installation notes:
LOGOs and supplementary graphics are solid vinyl
cuts against a perforated white background.

OPTIONS FOR WHITE BACKGROUND

Both options offer one way visibility out whilst
protecting privacy from the opposite direction.

Roller blinds in Octus bright white

This special polycarbonate fabric features a woven
structure that allows a view to the outside but doesn't
allow a peek in. It's the ideal window blind for rooms
that are over-looked by other properties or rooms
that are next to busy streets with passing pedestrians
and traffic.

Contravision window vinyl
Contra Vision products are perforated materials
which can be printed with colourful signs and
decoration and can only be seen from one side of the
glass. The printed lines can be applied to windows,
doors or internal partitions to add colour, branding,
advertising, privacy and solar control.
