**Instructions for Completing Part 1**

**Part 1 is to be completed by the applicant or project sponsor.** Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either “Yes” or “No”. If the answer to the initial question is “Yes”, complete the sub-questions that follow. If the answer to the initial question is “No”, proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the project sponsor to verify that the information contained in Part 1 is accurate and complete.

**A. Project and Sponsor Information.**

Name of Action or Project: Comprehensive Plan amendments and local laws to amend Zoning Map and Chapter 223 of the Code of the City of Beacon.		
Project Location (describe, and attach a general location map): The impacted districts include the following Districts FCD, CB, GB, CMS, LB, HI, RD-5, R1-5, and LI.		
Brief Description of Proposed Action (include purpose or need): Amendments to the Comprehensive Plan and three Local Laws are proposed. One Local Law amends the Zoning Map to (1) rezone properties along the Main Street Corridor to unify the CB and CMS Districts on Main Street under one set of zoning regulations (CMS), (2) rezone parcels along Tioronda Avenue from Industrial to GB and (3) rezone industrial parcels along the Metro-North corridor to FCD, including the vacant parcel at Groveville Mills. The second local law proposes zoning text amendments to modify the CMS District regulations which will be extended to the east and west areas of Main Street through the zoning map amendments. The third proposed local law eliminates special permit approval by the City Council for development projects in the FCD District among other text changes. Each Fishkill Creek development project, under the proposed local law, will require concept plan approval by the City Council and site plan approval by the Planning Board. An amendment to the City of Beacon Comprehensive Plan is also proposed. The amendment involves individual parcel zoning adjustments to the recommendations in Sections 11 and 12 of the Comprehensive Plan Update adopted 4/3/17. These proposed changes in the local laws are consistent with the overall intent and general recommendations in the 2017 Comprehensive Plan Update, but require specific adjustments to individual streets and parcel recommendations.

**Narrative of Purpose for Comprehensive Plan Amendment  
and Legislative Enactment**

Comprehensive Plan Amendment and “Local Law to Amend the Zoning Map and Chapter 223 of the Code of the City of Beacon Concerning the City’s Commercial Districts”  
Pursuant to Part 1 of the Full Environmental Assessment Form

The proposed amendments to the Comprehensive Plan involve individual parcel adjustments to the recommendations in the Comprehensive Plan Update, Sections 11 and 12, as adopted April 3, 2017. The Beacon City Council is proposing to adopt amendments to the Zoning Map and text for the purpose of implementing the general recommendations in the Comprehensive Plan Update. During discussions regarding certain parcels, the City Council agreed on adjustments to the overall recommended changes in the Comprehensive Plan Update, most specifically represented in Figure 11-1, Future Land Use Map, Table 12-1, Proposed Zoning Changes, and Figure 12-1, Proposed Zoning Changes.

A portion of the Metro-North Commuter Railroad right-of-way along Tioronda Avenue, tax parcel number 6054-37-096715, with the owner’s address at 347 Madison Avenue, New York, NY 10017 is proposed to be changed from LI to FCD. The Comprehensive Plan Update recommended other sections of the Metro-North right-of-way just to the north be merged into the FCD district. This additional section of the track right-of-way will link two currently zoned FCD parcels to make a continuous FCD district. Because of the existing tracks and steep slopes on the parcel, the rezoning will not significantly affect any development potential.

A 1.3-acre parcel along the Fishkill Creek owned by the Scenic Hudson Land Trust, Inc. at 1 Civic Center Plaza, Poughkeepsie, NY 12601, tax parcel number 5954-16-910293, is proposed to be changed from FCD to WP. The parcel is contiguous with other properties zoned WP and is very near another Scenic Hudson parcel that is part of Madam Brett Park. The City Council proposes to extend the WP district to include this parcel because of its sensitive nature along the Fishkill Creek and proximity to the other Scenic Hudson-owned park parcels.

A 2.582-acre parcel along the Fishkill Creek owned by the City of Beacon at 1 Municipal Plaza, Beacon, NY 12508, tax parcel number 6054-37-037625, is proposed to be changed

from LI to GB. The Comprehensive Plan Update Table 12-1 recommended this parcel be rezoned to FCD, but the City Council issued a Request for Proposals for this property and subsequently entered into an agreement with a potential buyer. The property is at the end of a dead-end street with the adjacent parcel along the same street to the north zoned GB. The proposed GB district zoning would be less of a change from the LI district and more consistent with the GB district to the north.

An 8.7-acre parcel at 11-89 Mason Circle owned by Beacon Hip lofts, LLC with a tax parcel number 6055-04-535128 is proposed to remain in the LI district. The Comprehensive Plan Update Table 12-1 and Figure 12-1 recommended this parcel be rezoned to FCD, but the owner subsequently proposed an amendment to the Special Permit approval that would include a new building and other site plan changes. Since an active application has been before the Planning Board for several months and the property will then be built-out substantially consistent with the LI district regulations, the City Council is proposing to have the parcel remain in the current LI district.

The Comprehensive Plan Update Table 12-1 and Figure 12-1 recommended that the existing CB districts at the upper and lower ends of Main Street be merged into the CMS district, which would provide all of Main Street with the more specific architectural and design standards in the CMS district. The City Council is proposing to extend the east end expansion to the Fountain Square area, which is currently zoned LB. The CMS designation includes detailed architectural graphics, streetscape illustrations, and site design standards to better protect the historic character of this area.

The Comprehensive Plan Update recommended the extension of the CMS district north on Fishkill Avenue to Verplanck Avenue. After careful consideration of the primarily residential uses along this block and the historic character of several of the buildings, the City Council is not proposing to permit commercial zoning on this block. This would prevent commercial expansion into these parcels and protect the primarily residential buildings along this block. Instead, these more modest changes would have far fewer impacts on the neighborhood. In addition, two single-family houses with historic qualities currently in the RD-5 district will be rezoned to the adjacent R1-5 district, one parcel with a commercial use in the RD-5 district is proposed to be included in the adjacent RD-4 district to encourage redevelopment into a more consistent use with the rest of the block, and a row of parcels on the south side of South Street currently in the R1-5 district is proposed to be rezoned to PB. Several of these properties are the rear portions of parcels that front on Main Street. Two buildings facing South Street in this area have commercial uses. A PB district designation would give

these parcels more flexibility for additional uses and act as a transitional area between Main Street and the R1-5 district. Uses in the R1-5 would still be permitted in the PB.

In addition to the Comprehensive Plan amendment and the modifications to the Zoning Map, text changes are proposed for the CMS District and FCD District regulations. The proposed local law amending the CMS District regulations proposes clarifications and updates to the permitted uses, eliminates a five-story building as a use permitted by special permit, creates a dual rear yard setback requirement dependent upon the depth of the lot, requires a 15-foot building setback for buildings abutting a residential district that are over 39 feet in height, and updates the applicable design standards, among other changes. The proposed local law amending the FCD District regulations proposes clarifications and updates to the permitted uses, eliminates the requirement for special permit approval for development projects in the FCD, updates the design standards, reduces development potential by requiring a deduction of certain environmentally sensitive areas from the overall lot area used to determine the maximum number of dwelling units permitted per acre, requires a minimum of 25% of the total floor area to be devoted to nonresidential uses, and increases the permitted maximum height, among other changes.

These proposed changes are consistent with the overall intent and general recommendations in the 2017 Comprehensive Plan Update, but involve the City Council making more specific adjustments to individual streets and parcels. The Comprehensive Plan Update primarily focused on the waterfront area with less parcel-by-parcel attention concentrated on the area covered by these amendments. In many cases, such as the Fishkill Avenue block, the proposed zoning will result in fewer potential impacts. In some areas, such as the extension of the CMS into the Fountain Square area, it may allow additional development potential, but the existing historic character of the area will be better protected by the architectural, streetscape, and design standards not present in the current LB district. These modifications to the Comprehensive Plan Update are modest in relation to the larger City context, reflect more recent information, or were the result of a more careful look at individual parcels by the City Council.

The Proposed Action is an exercise of the police powers of the City to protect, health, safety, and general welfare of its residents and property owners. The proposed local laws amending the Zoning Map and the text of the CMS and FCD Districts do not involve site-specific construction or development activities. Therefore, any subsequent site development actions would be subject to more complete analysis in accordance with the requirements of the State Environmental Quality Review Act.

**Full Environmental Assessment Form**  
**Part 2 - Identification of Potential Project Impacts**

Agency Use Only [If applicable]

Project :	Zoning Amendments
Date :	November 6, 2017

**Part 2 is to be completed by the lead agency.** Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency **and** the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

**Tips for completing Part 2:**

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.
