Full Environmental Assessment Form Part 1 - Project and Setting

Instructions for Completing Part 1

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either "Yes" or "No". If the answer to the initial question is "Yes", complete the sub-questions that follow. If the answer to the initial question is "No", proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the project sponsor to verify that the information contained in Part 1 is accurate and complete.

A. Project and Sponsor Information.

Name of Action or Project:		
Project Location (describe, and attach a general location map):		
Brief Description of Proposed Action (include purpose or need):		
Name of Applicant/Sponsor:	Telephone:	
	E-Mail:	
Address:		
City/PO:	State:	Zip Code:
Project Contact (if not same as sponsor; give name and title/role):	Telephone:	I
	E-Mail:	
Address:		
City/PO:	State:	Zip Code:
Property Owner (if not same as sponsor):	Telephone:	L
	E-Mail:	
Address:		
City/PO:	State:	Zip Code:

B. Government Approvals

B. Government Approvals, Funding, or Sponsorship.	("Funding"	'includes grants,	loans, t	tax relief,	and any c	other forms	of financial
assistance.)							

Government En	itity	If Yes: Identify Agency and Approval(s) Required		ation Date or projected)
a. City Council, Town Board, or Village Board of Trustee				
b. City, Town or Village Planning Board or Commis	□ Yes □ No sion			
c. City Council, Town or Village Zoning Board of A	□ Yes □ No ppeals			
d. Other local agencies	□ Yes □ No			
e. County agencies	□ Yes □ No			
f. Regional agencies	□ Yes □ No			
g. State agencies	\Box Yes \Box No			
h. Federal agencies	□ Yes □ No			
i. Coastal Resources.<i>i</i>. Is the project site within	a Coastal Area, o	or the waterfront area of a Designated Inland Wa	terway?	□ Yes □ No
<i>ii</i> . Is the project site locate <i>iii</i> . Is the project site within		with an approved Local Waterfront Revitalization Hazard Area?	on Program?	□ Yes □ No □ Yes □ No

C. Planning and Zoning

C.1. Planning and zoning actions.	
 Will administrative or legislative adoption, or amendment of a plan, local law, ordinance, rule or regulation be the only approval(s) which must be granted to enable the proposed action to proceed? If Yes, complete sections C, F and G. If No, proceed to question C.2 and complete all remaining sections and questions in Part 1 	□ Yes □ No
C.2. Adopted land use plans.	
a. Do any municipally- adopted (city, town, village or county) comprehensive land use plan(s) include the site where the proposed action would be located?	□ Yes □ No
If Yes, does the comprehensive plan include specific recommendations for the site where the proposed action would be located?	□ Yes □ No
 b. Is the site of the proposed action within any local or regional special planning district (for example: Greenway Brownfield Opportunity Area (BOA); designated State or Federal heritage area; watershed management plan; or other?) If Yes, identify the plan(s): 	□ Yes □ No
 c. Is the proposed action located wholly or partially within an area listed in an adopted municipal open space plan, or an adopted municipal farmland protection plan? If Yes, identify the plan(s): 	□ Yes □ No

C.3. Zoning	
a. Is the site of the proposed action located in a municipality with an adopted zoning law or ordinance. If Yes, what is the zoning classification(s) including any applicable overlay district?	□ Yes □ No
b. Is the use permitted or allowed by a special or conditional use permit?	□ Yes □ No
c. Is a zoning change requested as part of the proposed action?If Yes,<i>i</i>. What is the proposed new zoning for the site?	□ Yes □ No
C.4. Existing community services.	
a. In what school district is the project site located?	
b. What police or other public protection forces serve the project site?	
c. Which fire protection and emergency medical services serve the project site?	
d. What parks serve the project site?	

D. Project Details

D.1. Proposed and Potential Development	
a. What is the general nature of the proposed action (e.g., residential, indu components)?	strial, commercial, recreational; if mixed, include all
b. a. Total acreage of the site of the proposed action?	acres
b. Total acreage to be physically disturbed?	acres
c. Total acreage (project site and any contiguous properties) owned	
or controlled by the applicant or project sponsor?	acres
c. Is the proposed action an expansion of an existing project or use?	\Box Yes \Box No
<i>i</i> . If Yes, what is the approximate percentage of the proposed expansion square feet)? % Units:	n and identify the units (e.g., acres, miles, housing units,
d. Is the proposed action a subdivision, or does it include a subdivision?	□ Yes □ No
If Yes,	
<i>i</i> . Purpose or type of subdivision? (e.g., residential, industrial, commerc	ial; if mixed, specify types)
<i>ii.</i> Is a cluster/conservation layout proposed?	\Box Yes \Box No
<i>iii</i> . Number of lots proposed?	
<i>iv</i> . Minimum and maximum proposed lot sizes? Minimum	_ Maximum
e. Will proposed action be constructed in multiple phases?	\Box Yes \Box No
<i>i</i> . If No, anticipated period of construction:	months
<i>ii.</i> If Yes:	
• Total number of phases anticipated	`
• Anticipated commencement date of phase 1 (including demoliti	
Anticipated completion date of final phase	monthyear
Generally describe connections or relationships among phases, in determine timing or duration of future phases:	

f. Does the project	ct include new resid	lential uses?			\Box Yes \Box No
If Yes, show num	bers of units propo

			ch or adjacent area?		
If Yes:					
				vater index number, wetland map numb	
description):					

<i>ii</i> . Describe how the proposed action would affect that waterbody or wetland, e.g. excavation, fill, placen alteration of channels, banks and shorelines. Indicate extent of activities, alterations and additions in so	
<i>iii.</i> Will proposed action cause or result in disturbance to bottom sediments?	□ Yes □ No
If Ves describe	
<i>iv.</i> Will proposed action cause or result in the destruction or removal of aquatic vegetation? If Yes:	\Box Yes \Box No
acres of aquatic vegetation proposed to be removed:	
expected acreage of aquatic vegetation remaining after project completion:	
• purpose of proposed removal (e.g. beach clearing, invasive species control, boat access):	
proposed method of plant removal:	
• if chemical/herbicide treatment will be used, specify product(s):	
v. Describe any proposed reclamation/mitigation following disturbance:	
. Will the proposed action use, or create a new demand for water? f Yes:	\Box Yes \Box No
<i>i</i> . Total anticipated water usage/demand per day: gallons/day	
<i>ii.</i> Will the proposed action obtain water from an existing public water supply?	□ Yes □ No
f Yes:	
Name of district or service area:	
• Does the existing public water supply have capacity to serve the proposal?	\Box Yes \Box No
• Is the project site in the existing district?	\Box Yes \Box No
• Is expansion of the district needed?	\Box Yes \Box No
• Do existing lines serve the project site?	\Box Yes \Box No
<i>ii.</i> Will line extension within an existing district be necessary to supply the project? Yes:	\Box Yes \Box No
Describe extensions or capacity expansions proposed to serve this project:	
Source(s) of supply for the district:	
<i>iv.</i> Is a new water supply district or service area proposed to be formed to serve the project site? Yes:	\Box Yes \Box No
Applicant/sponsor for new district:	
Date application submitted or anticipated:	
Proposed source(s) of supply for new district:	
v. If a public water supply will not be used, describe plans to provide water supply for the project:	
<i>i</i> . If water supply will be from wells (public or private), maximum pumping capacity: gallons/m	iinute.
. Will the proposed action generate liquid wastes?	\Box Yes \Box No
f Yes:	
<i>i.</i> Total anticipated liquid waste generation per day: gallons/day	11 . 1
<i>ii</i> . Nature of liquid wastes to be generated (e.g., sanitary wastewater, industrial; if combination, describe a approximate volumes or proportions of each):	
<i>i.</i> Will the proposed action use any existing public wastewater treatment facilities? If Yes:	\Box Yes \Box No
Name of wastewater treatment plant to be used:	
Name of district: Data the excitate protocological and the excitate and th	
 Does the existing wastewater treatment plant have capacity to serve the project? Is the project site in the existing district? 	□ Yes □ No □ Yes □ No
 Is the project site in the existing district? Is expansion of the district needed?	\Box Yes \Box No \Box Yes \Box No
• is expansion of the district needed?	\Box res \Box No

• Do existing sewer lines serve the project site?	\Box Yes \Box No
• Will line extension within an existing district be necessary to serve the project?	\Box Yes \Box No
If Yes:	= 105 = 110
Describe extensions or capacity expansions proposed to serve this project:	
<i>iv.</i> Will a new wastewater (sewage) treatment district be formed to serve the project site?	\Box Yes \Box No
If Yes:	
Applicant/sponsor for new district:	
Date application submitted or anticipated:	
	· · · · · · · · · · · · · · · · · · ·
 What is the receiving water for the wastewater discharge? v. If public facilities will not be used, describe plans to provide wastewater treatment for the project, including specence 	:0 :
	inying proposed
receiving water (name and classification if surface discharge, or describe subsurface disposal plans):	
vi. Describe any plans or designs to capture, recycle or reuse liquid waste:	
e. Will the proposed action disturb more than one acre and create stormwater runoff, either from new point	\Box Yes \Box No
sources (i.e. ditches, pipes, swales, curbs, gutters or other concentrated flows of stormwater) or non-point	
source (i.e. sheet flow) during construction or post construction?	
If Yes:	
<i>i</i> . How much impervious surface will the project create in relation to total size of project parcel?	
Square feet or acres (impervious surface)	
Square feet or acres (ninpervious surface)	
<i>ii</i> . Describe types of new point sources.	
iii. Where will the stormwater runoff be directed (i.e. on-site stormwater management facility/structures, adjacent p	oroperties,
groundwater on site surface water or off site surface waters)?	
groundwater, on-site surface water or off-site surface waters)?	
If to surface waters, identify receiving water bodies or wetlands:	
If to surface waters, identify receiving water bodies or wetlands: Will stormwater runoff flow to adjacent properties?	□ Yes □ No
 If to surface waters, identify receiving water bodies or wetlands: Will stormwater runoff flow to adjacent properties? <i>iv.</i> Does proposed plan minimize impervious surfaces, use pervious materials or collect and re-use stormwater? 	□ Yes □ No □ Yes □ No
If to surface waters, identify receiving water bodies or wetlands: Will stormwater runoff flow to adjacent properties? /// Does proposed plan minimize impervious surfaces, use pervious materials or collect and re-use stormwater? f. Is the project site located in an Air quality non-attainment area? (Area routinely or periodically fails to meet ambient air quality standards for all or some parts of the year) ii. In addition to emissions as calculated in the application, the project will generate: 	□ Yes □ No □ Yes □ No □ Yes □ No □ Yes □ No

 h. Will the proposed action generate or emit methane (including, but not limited to, sewage treatment plants, landfills, composting facilities)? If Yes: <i>i</i>. Estimate methane generation in tons/year (metric):	□ Yes □ No
 i. Will the proposed action result in the release of air pollutants from open-air operations or processes, such as quarry or landfill operations? If Yes: Describe operations and nature of emissions (e.g., diesel exhaust, rock particulates/dust): 	□ Yes □ No
 j. Will the proposed action result in a substantial increase in traffic above present levels or generate substantial new demand for transportation facilities or services? If Yes: <i>i</i>. When is the peak traffic expected (Check all that apply): □ Morning □ Evening □ Weekend □ Randomly between hours of to <i>ii</i>. For commercial activities only, projected number of semi-trailer truck trips/day:	□ Yes □ No
 <i>iv.</i> Does the proposed action include any shared use parking? <i>v.</i> If the proposed action includes any modification of existing roads, creation of new roads or change in existing a <i>vi.</i> Are public/private transportation service(s) or facilities available within ½ mile of the proposed site? <i>vii</i> Will the proposed action include access to public transportation or accommodations for use of hybrid, electric or other alternative fueled vehicles? <i>viii.</i> Will the proposed action include plans for pedestrian or bicycle accommodations for connections to existing pedestrian or bicycle routes? 	\Box Yes \Box No
 k. Will the proposed action (for commercial or industrial projects only) generate new or additional demand for energy? If Yes: <i>i</i>. Estimate annual electricity demand during operation of the proposed action: <i>ii</i>. Anticipated sources/suppliers of electricity for the project (e.g., on-site combustion, on-site renewable, via grid/l other): 	□ Yes □ No
iii. Will the proposed action require a new, or an upgrade to, an existing substation? 1. Hours of operation. Answer all items which apply. i. During Construction: ii. During Operations: • Monday - Friday: • Monday - Friday: • Saturday: • Saturday: • Sunday: • Sunday: • Holidays: • Holidays:	

m. Will the proposed action produce noise that will exceed existing ambient noise levels during construction, operation, or both?	\Box Yes \Box No
If yes:	
<i>i</i> . Provide details including sources, time of day and duration:	
<i>ii.</i> Will proposed action remove existing natural barriers that could act as a noise barrier or screen?	\Box Yes \Box No
Describe:	
n Will the proposed action have outdoor lighting?	□ Yes □ No
If yes:	
<i>i</i> . Describe source(s), location(s), height of fixture(s), direction/aim, and proximity to nearest occupied structures:	
<i>ii.</i> Will proposed action remove existing natural barriers that could act as a light barrier or screen? Describe:	\Box Yes \Box No
o. Does the proposed action have the potential to produce odors for more than one hour per day?	□ Yes □ No
If Yes, describe possible sources, potential frequency and duration of odor emissions, and proximity to nearest	
occupied structures:	
p. Will the proposed action include any bulk storage of petroleum (combined capacity of over 1,100 gallons)	□ Yes □ No
or chemical products 185 gallons in above ground storage or any amount in underground storage? If Yes:	
<i>i</i> . Product(s) to be stored	
<i>ii</i> . Volume(s) per unit time (e.g., month, year)	
<i>iii</i> . Generally describe proposed storage facilities:	
q. Will the proposed action (commercial, industrial and recreational projects only) use pesticides (i.e., herbicides,	□ Yes □ No
insecticides) during construction or operation?	
If Yes: <i>i</i> . Describe proposed treatment(s):	
<i>ii.</i> Will the proposed action use Integrated Pest Management Practices?	\Box Yes \Box No
r. Will the proposed action (commercial or industrial projects only) involve or require the management or disposal of solid waste (excluding hazardous materials)?	\Box Yes \Box No
If Yes:	
<i>i</i> . Describe any solid waste(s) to be generated during construction or operation of the facility:	
 Construction: tons per (unit of time) Operation : tons per (unit of time) 	
<i>ii.</i> Describe any proposals for on-site minimization, recycling or reuse of materials to avoid disposal as solid waste:	
Construction:	
• Operation:	
<i>iii.</i> Proposed disposal methods/facilities for solid waste generated on-site:	
• Construction:	
Operation:	

 i. Type of management or handling of waste proposed for the site (e.g., recycling or transfer station, composting, landfill, or other disposal activities):	s. Does the proposed action include construction or modification of a solid waste management facility?	□ Yes □ No
other disposal activities): <i>ii</i> . Anticipated rate of disposal/processing: •Tons/hourt, if transfer or other non-combustion/thermal treatment, or •Tons/hour, if combustion or thermal treatment <i>iii</i> . If landfill, anticipated site life: years I. Will proposed action at the site involve the commercial generation, treatment, storage, or disposal of hazardous I Yes I No waste? If Yes: <i>i</i> . Name(s) of all hazardous wastes or constituents to be generated, handled or managed at facility: <i>iii</i> . Generally describe processes or activities involving hazardous wastes or constituents: <i>iii</i> . Specify amount to be handled or generatedtons/month <i>iv</i> . Describe any proposals for on-site minimization, recycling or reuse of hazardous constituents: <i>v</i> . Will any hazardous wastes be disposed at an existing offsite hazardous waste facility? If Yes: <i>v</i> . Will any hazardous wastes be disposed at an existing offsite hazardous waste facility? If Yes: <i>v</i> . Will any hazardous match of any hazardous wastes which will not be sent to a hazardous waste facility: <i>if</i> No: describe proposed Action E. Site and Setting of Proposed Action E. Land uses on and surrounding the project site <i>i</i> . Check all uses that occur on, adjoining and near the project site. I Urban I Urban I ndustrial I commercial I escidential (suburban) I Rural (non-farm)	If Yes: <i>i</i> Type of management or handling of waste proposed for the site (a.g., recycling or transfer station, composting	landfill or

Acreage

Acreage After

Project Completion

Change

(Acres +/-)

c. Is the project site presently used by members of the community for public recreation? <i>i</i> . If Yes: explain:		
 d. Are there any facilities serving children, the elderly, people with disabilities (e.g., schools, hospitals, licensed day care centers, or group homes) within 1500 feet of the project site? If Yes, 	□ Yes □ No	
<i>i</i> . Identify Facilities:		
e. Does the project site contain an existing dam?	□ Yes □ No	
If Yes:		
 <i>i.</i> Dimensions of the dam and impoundment: Dam height:		
Dam length: feet		
Surface area: acres		
Volume impounded: gallons OR acre-feet		
ii. Dam's existing hazard classification:		
<i>iii.</i> Provide date and summarize results of last inspection:		
f. Has the project site ever been used as a municipal, commercial or industrial solid waste management facility, or does the project site adjoin property which is now, or was at one time, used as a solid waste management facil If Yes:	□ Yes □ No ity?	
<i>i</i> . Has the facility been formally closed?	\Box Yes \Box No	
If yes, cite sources/documentation:		
<i>ii</i> . Describe the location of the project site relative to the boundaries of the solid waste management facility:		
<i>iii.</i> Describe any development constraints due to the prior solid waste activities:		
g. Have hazardous wastes been generated, treated and/or disposed of at the site, or does the project site adjoin property which is now or was at one time used to commercially treat, store and/or dispose of hazardous waste? If Yes:	□ Yes □ No	
<i>i</i> . Describe waste(s) handled and waste management activities, including approximate time when activities occurre	ed:	
 h. Potential contamination history. Has there been a reported spill at the proposed project site, or have any remedial actions been conducted at or adjacent to the proposed site? If Yes: 	□ Yes □ No	
<i>i</i> . Is any portion of the site listed on the NYSDEC Spills Incidents database or Environmental Site Remediation database? Check all that apply:	\Box Yes \Box No	
□ Yes – Spills Incidents database Provide DEC ID number(s):		
 Yes – Environmental Site Remediation database Neither database Provide DEC ID number(s):		
<i>ii.</i> If site has been subject of RCRA corrective activities, describe control measures:		
<i>iii.</i> Is the project within 2000 feet of any site in the NYSDEC Environmental Site Remediation database?	□ Yes □ No	
If yes, provide DEC ID number(s):		
<i>iv.</i> If yes to (i), (ii) or (iii) above, describe current status of site(s):		

v. Is the project site subject to an institutional control limiting property uses?	
If yes, DEC site ID number:	
 Describe the type of institutional control (e.g., deed restriction or easement): Describe any use limitations: 	
Describe any engineering controls:	
• Will the project affect the institutional or engineering controls in place?	\Box Yes \Box No
• Explain:	
E.2. Natural Resources On or Near Project Site	
a. What is the average depth to bedrock on the project site? feet	
b. Are there bedrock outcroppings on the project site?	\Box Yes \Box No
If Yes, what proportion of the site is comprised of bedrock outcroppings?	_%
c. Predominant soil type(s) present on project site:	%
	% %
d. What is the average depth to the water table on the project site? Average: feet	/`
e. Drainage status of project site soils: □ Well Drained: % of site	
□ Moderately Well Drained:% of site	
$\Box D = a u a D = a u a d = 0 / a f = a d d$	
	% of site
□ 10-15%:	% of site % of site
	-
g. Are there any unique geologic features on the project site? If Yes, describe:	\Box Yes \Box No
h. Surface water features.	
i. Does any portion of the project site contain wetlands or other waterbodies (including streams,	rivers, \Box Yes \Box No
ponds or lakes)? <i>ii.</i> Do any wetlands or other waterbodies adjoin the project site?	□ Yes □ No
If Yes to either <i>i</i> or <i>ii</i> , continue. If No, skip to E.2.i.	
<i>iii.</i> Are any of the wetlands or waterbodies within or adjoining the project site regulated by any f	Federal, □ Yes □ No
state or local agency?	a information.
 iv. For each identified regulated wetland and waterbody on the project site, provide the following Streams: Name Class 	
• Lakes or Ponds: Name Class:	ification
Wetlands: Name Appro Wetland No. (if regulated by DEC)	oximate Size
 Wetland No. (if regulated by DEC)	-impaired □ Yes □ No
waterbodies?	
If yes, name of impaired water body/bodies and basis for listing as impaired:	
i. Is the project site in a designated Floodway?	□ Yes □ No
j. Is the project site in the 100 year Floodplain?	□ Yes □ No
k. Is the project site in the 500 year Floodplain?	□ Yes □ No
1. Is the project site located over, or immediately adjoining, a primary, principal or sole source ag	
If Yes:	
<i>i</i> . Name of aquifer:	

m. Identify the predominant wildlife species that occupy or use the project site:	
n. Does the project site contain a designated significant natural community?	□ Yes □ No
<i>i.</i> Describe the habitat/community (composition, function, and basis for designation):	
<i>ii.</i> Source(s) of description or evaluation:	
<i>iii.</i> Extent of community/habitat:	
Currently: acres	
Following completion of project as proposed: acres	
• Gain or loss (indicate + or -):acres	
endangered or threatened, or does it contain any areas identified as habitat for an endangered or t	hreatened species?
p. Does the project site contain any species of plant or animal that is listed by NYS as rare, or as a special concern?	species of □ Yes □ No
q. Is the project site or adjoining area currently used for hunting, trapping, fishing or shell fishing?	
If yes, give a brief description of how the proposed action may affect that use:	
E.3. Designated Public Resources On or Near Project Site	
 a. Is the project site, or any portion of it, located in a designated agricultural district certified pursua Agriculture and Markets Law, Article 25-AA, Section 303 and 304? If Yes, provide county plus district name/number:	
b. Are agricultural lands consisting of highly productive soils present?	□ Yes □ No
<i>i</i> . If Yes: acreage(s) on project site?	
 c. Does the project site contain all or part of, or is it substantially contiguous to, a registered Nation Natural Landmark? If Yes: i. Nature of the natural landmark: ii. Provide brief description of landmark, including values behind designation and approximate si 	2
 d. Is the project site located in or does it adjoin a state listed Critical Environmental Area? If Yes: i. CEA name: 	□ Yes □ No
<i>ii.</i> Basis for designation:	

 e. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district which is listed on, or has been nominated by the NYS Board of Historic Preservation for inclusion on, the State or National Register of Historic Places? If Yes: i. Nature of historic/archaeological resource: □ Archaeological Site □ Historic Building or District ii. Name: 	□ Yes □ No
<i>iii.</i> Brief description of attributes on which listing is based:	
f. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory?	□ Yes □ No
 g. Have additional archaeological or historic site(s) or resources been identified on the project site? If Yes: <i>i</i>. Describe possible resource(s): <i>ii</i>. Basis for identification: 	□ Yes □ No
 h. Is the project site within fives miles of any officially designated and publicly accessible federal, state, or local scenic or aesthetic resource? If Yes: <i>i</i>. Identify resource: <i>ii</i>. Nature of, or basis for, designation (e.g., established highway overlook, state or local park, state historic trail or etc.): 	□ Yes □ No scenic byway,
<i>iii.</i> Distance between project and resource: miles.	
 i. Is the project site located within a designated river corridor under the Wild, Scenic and Recreational Rivers Program 6 NYCRR 666? If Yes: i. Identify the name of the river and its designation: ii. Is the activity consistent with development restrictions contained in 6NYCRR Part 666? 	□ Yes □ No
<i>i</i> . Is the activity consistent with development restretions contained in of vice KK i at 600?	

F. Additional Information

Attach any additional information which may be needed to clarify your project.

If you have identified any adverse impacts which could be associated with your proposal, please describe those impacts plus any measures which you propose to avoid or minimize them.

G. Verification

I certify that the information provided is true to the best of my knowledge.

Site Description

This site received municipal, commercial and industrial wastes including wastes from a local dye works. The site has four feet of soil and vegetative cover over a plastic liner. Groundwater discharges to the Hudson River. A Phase I Investigation has been completed. A Phase II Investigation, completed in March of 1991, found no evidence of hazardous waste disposal. Analysis of surface water samples collected from the adjacent Hudson River, revealed no contamination attributable to the former land-

fill. The site is currently used as a public park and is located just north of the Beacon Metro Train station. The site will be referred to the Division of Solid Waste for their continued oversight.

Site Environmental Assessment

There is no evidence of leachate at the site. There is no evidence of surface water contamination attributable to the landfill. No environmental problems exist that can be associated with the disposal of hazardous waste. The site does not qualify for addition to the Registry of Inactive Hazardous Waste Disposal Sites

* **Class N Sites:** "DEC offers this information with the caution that the amount of information provided for Class N sites is highly variable, not necessarily based on any DEC investigation, sometimes of unknown origin, and sometimes is many years old. Site Description

See V00293

Site Environmental Assessment

See V00293. The actual site of the MGP has been redeveloped, and no trace of the original plant or surrounding soils remains. A neighboring property across the street (Dorel Hat) was found to have been impacted by tar which had migrated from the MGP site, and was remediated under V00293.

Site Owner(s) and Operator(s)

Site Description

Site Location: The CHGE Beacon MGP Dorel Hat property is located in a suburban area in the City of Beacon, Dutchess County, N.Y. The site is approximately 4 acres in size, and is bounded by West Main St. to the north, River St. to the east, an open field owned by the Metropolitan Transportation Authority to the south and by Railroad Drive and the Beacon Railroad station to the west. Site Features: The main site features include: an approximately 32,000 square foot building surrounded by a grass covered area in the southern portion of the property and an asphalt paved parking lot in the northern half. Current Zoning/Uses: The site is currently used for storage and office space and is zoned commercial. The surrounding parcels are commercial and residential. The nearest residential area is comprised of townhouses located approximately 100 feet to the east on River St. Past Uses of the Site: The 1 Main Street site is adjacent to a former manufactured gas plant (MGP). The MGP, located on River Street, operated from 1871 to approximately 1946. Operable Units (OU) The site was divided into 2 Operable Units. An operable unit represents a portion of a remedial program for a site that for technical or administrative reasons can be addressed separately to investigate, eliminate or mitigate a release, threat of release or exposure pathway resulting from the site contamination

Environmental Remediation Databases

Operable Unit 1 (OU1) consists of the MGP site itself, which has since been redeveloped for residential use. It appears that all contaminated soils were removed prior to redevelopment. No significant amounts of MGP contamination were found to remain at the former MGP site, and it was determined that no further action was required. A release letter for the Beacon MGP was issued under the VCA on January 31, 2002. Operable Unit 2 (OU2)consists of the property across the street from the MGP, known as the Dorel Hat property. The majority of MGP contaminated soil was removed during an IRM conducted in 2007. On September 12, 2007 the Dorel Hat property was transferred to the Metropolitan Transportation Authority. On July 15, 2011 the Metropolitan Transportation Authority filed a Deed Restriction by which it is required to comply with the Department approved Site Management Plan. Site Geology/Hydrogeology: The site is underlain by unconsolidated sand and silt deposits to a depth of approximately 8 feet. Below these, a 4 foot thick clay layer lies above the slate bedrock. Groundwater on the site flows toward the Hudson River, to the west.

Contaminants of Concern (Including Materials Disposed)

Contaminant Name/Type other coal tar

Site Environmental Assessment

The primary contaminant is coal tar which contains PAHs and BTEX compounds. The majority of coal tar contaminated soil was removed during an IRM conducted in 2007. Due to the presence of the Dorel Hat building, a force sewer Main and a gas line on the site, some of the coal tar contaminated soil was not removed and remains in the subsurface under the building and to the east of the building. The coal tar is located at a depth of approximately 5 to 10 feet below the ground surface. Beneath the building, sub-slab soil vapor exceeds guidance values for indoor air. A sub-slab depressurization vapor mitigation system prevents sub-slab vapor from entering the building Groundwater on the site exceeds Groundwater Quality Standards for VOCs, SVOC's, Metals and Pesticides. The area is supplied by a public water supply.

Site Health Assessment

Measures are in place to control the potential for coming in contact with sub-surface soil and groundwater contamination remaining at the site. People are not drinking the contaminated groundwater because the site is served by a public water supply that is not affected by this contamination. Volatile organic compounds in groundwater may move into the soil vapor (air spaces within the soil), which in turn may move into overlying buildings and affect the indoor air quality. This process, which is similar to the movement of radon gas from the subsurface into the indoor air of buildings is referred to as soil vapor intrusion. A sub slab depressurization system (systems that ventilate/remove the air beneath the building) has been installed in the on-site building to prevent the

indoor air quality from being affected by the contamination in soil vapor beneath the building. Sampling indicates soil vapor intrusion is not a concern for off-site buildings.
