RE: Application of Orange County-Poughkeepsie Limited Partnership d/b/a Verizon Wireless –2 Red Flynn Drive

Dear Ms. Grogan:

This office serves as Regional Local Counsel to Orange County-Poughkeepsie Limited Partnership d/b/a Verizon Wireless. By letter dated November 17, 2017, we filed an application for Special Use Permit on behalf of our client for the installation of a new small cell facility on an existing wooden utility pole located in the municipal right of way adjacent to the above referenced address.

Shortly after the submission of the application, the city began deliberating a proposed local law intended to regulate small cell facilities. Verizon Wireless agreed to place its application on hold pending the review of the small cell local law, which was formally adopted in August, 2018.

Verizon Wireless respectfully requests the City Council to reinitiate the review of the application.

To assist the City Council, Verizon Wireless has revised its Site Selection Analysis included in the original application materials to account for the new siting priorities established in the small cell local law. Please find enclosed ten (10) copies of the revised Site Selection Analysis, which confirms that the proposed small cell facility complies with the siting hierarchy contained in the small cell local law, despite the fact that the proposed facility was designed long before the City Council adopted the new hierarchy.

Please place this application on the next available meeting agenda and contact us to confirm.

Thank you for your consideration.

Very truly yours,

Scott P. Olson, Esq.
